

Beamline for Schools

**Perform your own experiment at a real particle accelerator!
You can be a scientist!**

Audience: high-school students with their coaches (e.g. teachers)

Language: English

Teams of high-school students from all around the world can propose an experiment that they want to perform at a particle accelerator. The winning teams will be invited to labs like CERN and DESY to perform their experiments. Additional prizes will be awarded to selected teams. cern.ch/bl4s
